

**Next Meeting:
Saturday, April 19th
3:00-5:00pm
Free Event**

April's Topic: Installfest!

Come join us and see this "Linux" everyone is talking about. Bring your friends and family. New users, old users, curious users, and even frightened users. Bring your computer or laptop. We can help walk you through the install, give you tips and pointers on using Linux, show you how to install programs, and WOW you with some of our "Toys".

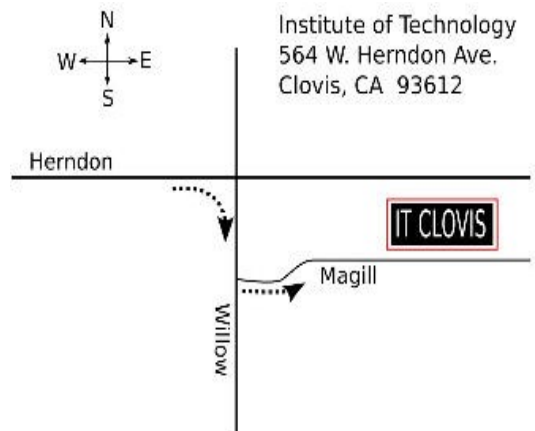

We will have digital copies of some of the most popular distributions. Bring a blank CD/DVD or a buck for media.

Basic requirement for MOST of the Full distribution's:

- Pentium III 1ghz (or better)
- 128mb Min - 512mb recommended
- 10gb HDD
- Basic video (3d would be nice)
- CD-ROM/DVD-ROM drive

Basic requirement for MOST of the Tiny Linux's:

- Pentium II 300mhz
- 64mb ram - 128mb recommended
- 5gb HDD
- CDROM
